Director Brisbo,

The Marijuana Regulatory Agency's recent recall of nearly 65,000 pounds of cannabis has caused a great deal of concern across the industry. While I appreciate and share your interest in protecting the health and safety of all consumers, I am concerned by some of the things I have heard about how this recall was conducted.

Given the importance of this issue I am requesting more information from you regarding this recall. At a minimum, I would like more information regarding the below items:

- A timeline of events and decisions which led to this recall.
- The testing or scientific data which is being used to justify these actions.
- A timeline for completing the on-going investigation of this issue.
- An explanation of how MRA communicated a recall of this size to all the licensees impacted by it and what you are doing to assist them.

Any time a government agency takes action like this it is important for the public to understand the basis of these decisions and know how your agency came to the conclusions that it did. With a highly regulated industry such as this, your agency has considerable power to impact the operations of Michigan businesses and the choices available to consumers. I look forward to your prompt and thorough response.

Sincerely,

A handwritten signature in black ink, reading "Aric Nesbitt".

Aric Nesbitt
State Senator
District 26
